ACAR SPECIAL PRODUCTS

ACAR Fire Fighting Vehicle Industry is to produce high performance and reliable fire extinguishing tools and equipment to protect lives and property.

With 30 years of industry experience, we leverage our strategic location on the the Istanbul-Izmir Highway to import from internationally recognized brands of fire pumps and components.

We offer excellent performance and reliability by using high quality vehicles. Customer satisfaction is at the core of our business and we continue to offer customized solutions beyond expectations, prioritizing public safety.

*As ACAR Company, we manufacture fire trucks and equipment that meet European standards, tailored to your needs, using the latest technology and our qualified employees. With the latest technological software and the machine fleet, it has an annual production capacity of 250 vehicles, which can still increase according to the potential 50%. All other materials used in production are produced in ACAR facilities.*

*In all its manufacturing processes, it designs and produces the latest technology products locally, handling both manufacturing and assembly. In the superstructure it produces, the company uses its own non-welding joint system, monoblock aluminum panels and stainless steel components, achieving production fully equivalent to European standards (CE).*
